insights into
successful
change

**This slide show
presents 25
inspiring insights
into successful
change.**

introduction

1

The greatest catalyst for change is the courage to put one foot in front of the other and the confidence to take one step at a time.

courage & confidence

2

With change, you cannot prevent what is likely to happen until you stop what you predictably do.

be unpredictable

3

People who aspire want things to change, but those who succeed, expect things to happen.

4

With change you can't make yourself believe that you can do it without others, if you make yourself believe that it's all about you.

5

To effect change you must
balance a negative perception
with a positive view.

positivity

6

With change, if you don't have the courage to face it, you won't have the chance to survive it.

survival

7

Sometimes the best measure of change isn't whether it's the best thing for you, it's whether it's the right thing for others.

co-operation

8

The best measure of change isn't the impression you make overnight, it's the impact you have over time.

impact

9

With change, if you want to set the example, you must be prepared to lead the way.

example setting

10

To effect change, don't just tell people what you are doing, show them why they should care.

engagement

11

Success isn't just the result of a commitment to make an effort, it's the result of a decision to make a change.

decision-making

12

With change, you don't need everyone to go together, you need someone to go first.

capability

13

**With change, if you start small
and build big, you will last
longer.**

BIG CHANGES

start small

14

With change, the key to how well you adapt, is how quickly you adjust.

adapt and adjust

15

**To effect change
you don't just
need a great idea,
you need a good
reason.**

inspiration

16

If you don't know the change you want then the change you get won't be the change you need.

know what you want

17

If you want change, work for it, don't wait for it.

take action

18

The biggest barrier to change isn't when you run out of ideas to take things forward, it's when you lack the energy to see things through.

effort and energy

19

The key to change isn't how much you think or how little you know, it's how much you learn.

learning

20

How you think shapes your reality. If you don't like your reality, change how you think.

21

To effect change,
you don't just
need to make
the best case,
you need to
choose the right
time.

the right time

22

Change isn't just about what you do to prepare, it's about what you're prepared to do.

thinking

23

**Always use
disruption to
challenge
conformity, but
never confuse
chaos with
change.**

disruption

24

To create a catalyst for change,
don't just ask people to co-
operate, get them to
collaborate.

empowerment

25

Until you address
the underlying
problem; you can
fix everything, but
you will change
nothing.
