successful
innovation

**This slide show
presents 25
inspiring insights
into successful
innovation.**

introduction

1

Sometimes the best evidence of innovation is when you can see and acknowledge what isn't even there.

evidence

2

With innovation, if you are going to achieve a big leap forward, you need to start from a long way back.

creativity

3

**Innovation isn't just
what you do to
produce it, it's what it
takes to repeat it.**

repetition

4

**Innovation isn't
just the insight to
see an
opportunity, it's
the confidence
to back your
idea.**

idea

5

With innovation, you won't know what you'll get if you don't know what you're doing.

understanding

6

Sometimes the key to innovation is to make sure that everyone has to support someone so that no-one has to support everyone.

collaboration

7

The key to innovation is to be confident about the things that you know and certain about the things that you don't.

confidence

8

The best
measure of a
great innovation
is not what it
looks like, it's
where it takes
you.

effectiveness

9

Innovation is the ability to try what others haven't thought of and the willingness to do what others won't do.

courage

10

The art of innovation is the ability to anticipate what is coming even when you don't know what is there.

anticipation

11

Innovation cannot re-invent the wheel, but it can make it go faster.

focus

12

**With innovation, a
good design
becomes an
effective solution
in capable hands.**

capability

13

With innovation,
for people to be
curious, you need
style, but for
people to be
confident you
need substance.

substance

14

**The key to
successful
innovation is
knowing when it is
time for change.**

time

15

**With innovation
don't just do what
inspires you, be
inspired by what
you do.**

inspiration

16

**With innovation, if you
expect something
better, then prepare for
something more.**

preparation

17

The key to innovation is the recognition that imagination is the only limit.

imagination

18

With innovation,
people won't know
what to expect until
you redefine what is
possible.

~~im~~possible

re-define

19

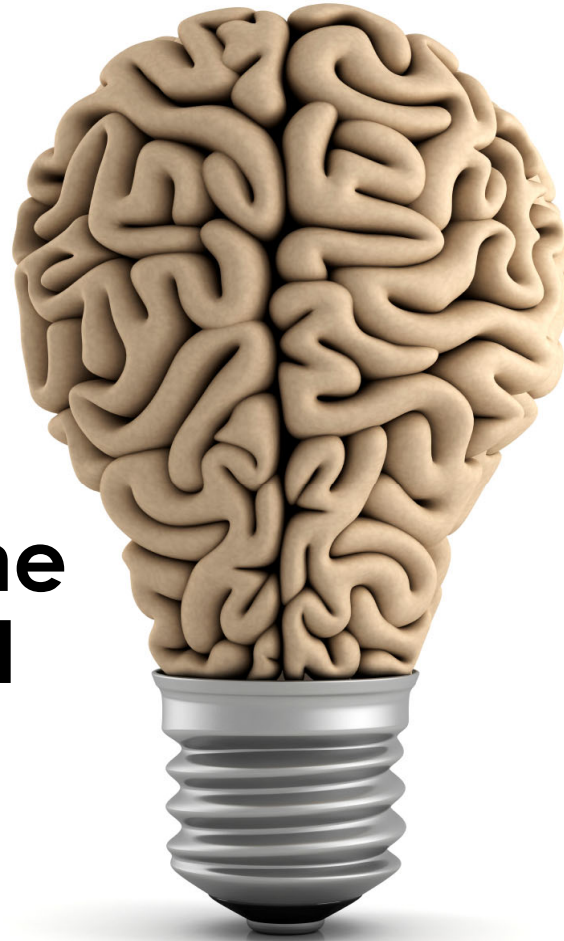

**With innovation
bad habits can be
learnt as quickly
as good habits
can be taught.**

habits

20

The most powerful way to prepare for the future is with a mind that's capable of taking you there.

future

21

Sometimes the best measure of innovation is the ability to turn big pieces into small parts.

change

22

The first stage of innovation isn't when you make them believe that it's true; it's when you make them think that it's possible.

thinking

23

The key to innovation isn't the ability to hold a definite idea, it's the ability to deploy a different approach.

deployment

24

**With innovation,
what enables you
to be successful is
what empowers
you to survive.**

empowerment

25

The key to innovation isn't the ability to do the extraordinary, it's the ability to do it consistently.

consistency
